

Agilent RF and Microwave Test Accessories

Power Dividers and Splitters

Power Dividers and Splitters

Agilent 11636A,B power dividers

These power dividers provide good match and excellent tracking characteristics from dc to 26.5 GHz. Power dividers are recommended for applications such as transmission line fault testing, as well as power combining. They are not recommended for ratio and leveling applications.

Agilent 11636A

Dimensions are in mm (inches) nominal, unless otherwise specified.

Agilent 11636B

Dimensions are in mm (inches) nominal, unless otherwise specified.

Specifications

Agilent model	Frequency range (GHz)	Max. SWR	Maximum insertion loss (dB)	Minimum isolation (dB)	Maximum amplitude tracking (dB) ¹	Maximum phase tracking deg) ¹
11636A	dc to 18	1.35	6.0 typ. ²		0.5 ³	±2° typ.
11636B	dc to 26.5	1.29	7.5		0.25 ³	±2° typ.

Power Rating: 10 watts 87302C/3C/4C, 1 watt CW 11636A/B, (2:1 maximum load SWR)

Connectors: 3.5 mm (f), (SMA compatible)

Weight: 170 g (6 oz) net, 340 g (12 oz) shipping

¹ Amplitude and phase tracking are the ratio of one output to the other in dB or degrees, respectively.

² 5.8 to 7.2 dB up to 10 GHz; 5.8 to 7.5 dB up to 18 GHz.

³ at 18 GHz.

Agilent Technologies' Test and Measurement Support, Services, and Assistance

Agilent Technologies aims to maximize the value you receive, while minimizing your risk and problems. We strive to ensure that you get the test and measurement capabilities you paid for and obtain the support you need. Our extensive support resources and services can help you choose the right Agilent products for your applications and apply them successfully. Every instrument and system we sell has a global warranty. Support is available for at least five years beyond the production life of the product. Two concepts underlie Agilent's overall support policy: "Our Promise" and "Your Advantage."

Our Promise

Our Promise means your Agilent test and measurement equipment will meet its advertised performance and functionality. When you are choosing new equipment, we will help you with product information, including realistic performance specifications and practical recommendations from experienced test engineers. When you use Agilent equipment, we can verify that it works properly, help with product operation, and provide basic measurement assistance for the use of specified capabilities, at no extra cost upon request. Many self-help tools are available.

Your Advantage

Your Advantage means that Agilent offers a wide range of additional expert test and measurement services, which you can purchase according to your unique technical and business needs. Solve problems efficiently and gain a competitive edge by contracting with us for calibration, extra-cost upgrades, out-of-warranty repairs, and onsite education and training, as well as design, system integration, project management, and other professional engineering services. Experienced Agilent engineers and technicians worldwide can help you maximize your productivity, optimize the return on investment of your Agilent instruments and systems, and obtain dependable measurement accuracy for the life of those products.

By internet, phone, or fax, get assistance with all your test & measurement needs
