

FLIR CM4X

Professional True RMS AC/DC
Clamp Meter Family with Accu-Tip™

The FLIR CM4X Clamp Meter Family includes three professional and affordable True RMS meters designed for commercial and residential electricians. The CM42 and CM44 feature AC clamp measurement, and the CM46 offers both AC/DC measurement to meet your unique needs. Each meter is equipped with a bright backlit display for ease of use inside electrical panels. Accu-Tip™ technology delivers amperage measurements on smaller-gauged wires more accurately – to a tenth of a digit. All models offer MAX/MIN/AVG recording, frequency measurement, and electrical field detection to help you determine voltage presence and relative strength of the field. Made with an over-molded, easy-to-grip design, the CM4X clamp meter family is durable enough to withstand a two-meter drop, and the slim form factor is convenient to carry in your toolbag anywhere you go.

Precise, accurate measurements

High accuracy and resolution in small panels

- Accu-Tip enables more accurate amperage measurements on smaller-gauged wires
- MAX/MIN/AVG recording, and frequency and diode measurement
- Data hold, zero function, and low pass filter for voltage measurement

Engineering you can have confidence in

Built rugged to last you for years to come

- Durable to withstand a 1-meter drop, and operates at -10 to 50°C (14 to 122°F)
- Large, bright backlit display makes readings easy to see
- Tough, over-molded, easy-to-grip design and slim, portable size

Professional performance at an affordable price

Provides all the critical features you need

- Built to accept up to a 30mm max conductor
- Electrical field detection determines if voltage is present and the relative strength of the field for safety
- True RMS professional clamp meters
