--	C-Clamp (set of 2)
--	Stabilizing Bracket

**Comments:**

The NEW Hakko 999-188-02 Bench Clamp is a direct and improved replacement of the Hakko 999-188-01 Bench Clamp. The new bench clamp features a wider clamping area utilizing two C-clamps, which results in improved stability in comparison to the previous model. There is no change to compatibility with fume extractors or duct kits. This change will affect all Loc-Line kits and the following part numbers will have the updated contents to include the new bench clamp: 999-205-01, 999-205-01B, 999-205-02, and 999-205-02B.
