

HANDLING OF THE PRODUCT

Volt / Thermometer Unit OP01-PFX / OP02-PFX

The OP01-PFX/ OP02-PFX is an interface board that you must install into Kikusui PFX2500 Series Charge / Discharge System Controllers, so the OP01-PFX/ OP02-PFX does not come with its own operation manual. For information on how to install this product into the PFX2500 series and how to use the OP01-PFX/ OP02-PFX, see the operation manual that came with the PFX2500 series or the help file on the CD-ROM provided with the application software BPChecker2000 or BPChecker3000.

Supported model

OP01-PFX	PFX2511
OP02-PFX	PFX2512, PFX2532

To use the PFX2511 with the OP01-PFX, the following firmware versions and software version are required. For information on how to check the current version, see the BPChecker2000 help file.

Charge / Discharge system controller PFX2511	Ver. 2.0 and later
Communication control unit PFX2121	Ver. 2.0 and later
Application software BPChecker2000	Ver. 3.0 and later

You must update the firmware of the PFX2511 or the PFX2121 if its current firmware is version 1.9 or earlier. You must update the version of the BPChecker2000 software if it is version 2.9 or earlier.

If you have to update the firmware, contact your Kikusui agent or distributor. Version 3.0 and later versions of the BPChecker2000. You can obtain these updaters from the Kikusui Electronics Corp. website (www.kikusui.co.jp/en/download/).

Before you use the product, thoroughly read the “⚠ Safety Symbols” and “⚠ Safety Precautions” that are written in the PFX2500 Series Charge / Discharge System Controller operation manual.

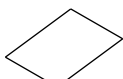

When handling the interface board, observe the following:

- **Ground yourself by touching the chassis before touching the interface board.**
- **Avoid handling the interface board in an environment subject to strong static electricity.**
- **For storage, provide electrostatic protection measures such as the anti-static bag accompanying the interface board.**
- **Do not drop the interface board or apply shock to it.**
- **Do not install or uninstall the interface board while the PFX2500 series is turned ON.**

Accessories

When you receive the product, check that all accessories are included and that the unit and accessories have not been damaged during transportation.

If any of the accessories are damaged or missing, contact your Kikusui agent or distributor.
