

# WXP 200 Set

Product no.: T0052920699N

## Benefits

- › Intelligent soldering iron 200 W, 24 V
- › For very large components (Shielding) with high/ medium energy demand
- › Most efficient soldering iron for WX stations
- › Parameter memory such as standby temperatures, automatic switch-off time
- › Reduces total costs of ownership due to motion sensor
- › Visual process control through LED signal function
- › Interchangeable XHT soldering tips at low cost prices
- › Power Response heating technology with improved sensor position
- › Fast reaction time

### Technical Data

|   |                      |
|---|----------------------|
| Active Tip heating element technology     | ---                  |
| Power Response heating element technology | on                   |
| Silver Line heating element technology    | ---                  |
| Voltage                                   | 24 V                 |
| Power                                     | 200 W                |
| Tip range                                 | XHT                  |
| Supply unit                               | ---                  |
| WX-compatible                             | on                   |
| Temperature range °C                      | 100 - 450            |
| Temperature range °F                      | 200 - 850            |
| Heating time                              | 19                   |
| Safety rest                               | WDH 31 (T0051515899) |
| Safety rest (optional)                    | WDH 31 (T0051515899) |
| Barrel                                    | T0058763725          |
| Integrated direct extraction              | ---                  |
